The Clerk reported that the Management Committee had met on 11 May. It was pleasing to report that the lift had been repaired at a cost of £432.00 which was lower than other quotes received. The twice yearly service cost was £132.00, again lower than other quotes. Harriett Bedford had made a donation of £100.00 towards the costs of the lift repairs. The Clerk was asked to write and thank Mrs Bedford. Otis was demanding payment for a routine service visit which was cancelled well in advance. (2) look at the feasibility of installing solar panels on the roof of the Centre.

2301. BARNES PARK

The Clerk reported that a request had been received to have the entrance restrictors on the entrances to the Park removed as they were difficult to get through for users of mobility scooters. The Parish Council considered that the restrictors should remain in place as the Park had previously suffered from damage due to motor cyclists riding round the Park. The restrictors prevented those responsible from using these entrances to exit the Park which in turn made it easier for the Police to police the problem.

The Clerk had requested 2 quotes from tree surgeons regarding the trees in the Park but to date none had been received. If none were received, it was suggested that the Clerk contact Chris Stout, Grounds Maintenance.

Concern was expressed over the amount of litter in the Park in recent weeks. The Streetcleaner had been asked to give the Park extra attention. The Clerk and the Chairman and Vice-Chairman agreed to look in more detail at the litter problem in the Park.

RESOLVED to note the report.

2304. GILL LANE ALLOTMENTS

The Clerk reported that David Burton had been in contact to report that a wide track had been strimmed through his crop of hybrid barley forming a path from Gill Lane to the allotments. The Clerk had contacted the Secretary who had confirmed that members of the allotments had cut the path. They felt that Mr Burton had not left a path to the allotments as he had in previous years and this path was the only vehicular access to the site they could use. Mr Burton was currently deciding what action he was going to take next.

The Association had considered the rules sent by the Clerk and had agreed some changes. They had however, unfortunately lost the document. The Clerk had re-sent it and comments were awaited.

2311. FLOODING – BARNES PARK

James Biddlestone, Derbyshire County Council attended the meeting to discuss flooding issues in Barnes Park and other areas of Grassmoor. With regard to the Park issues, it was noted that the County Council were looking to work with Yorkshire Water to fully understand the current and historical drainage systems in order that an assessment of remedial works could be made. Councillors Browne and Garbutt agreed to meet with James to discuss the issues further.

With regard to the flooding issues on North Wingfield Road, it was noted that works to the carriageway had been undertaken to prevent water running off the road and towards nearby properties. However, concern was expressed that proposed resurfacing of the road may lead to similar problems occurring in the future. The drains had been investigated and a large amount of fat had been found. Local residents had been advised about putting fat down the drains.

The County Council had liaised with the Golf Club regarding the flooding problems at Avenue Farm. As a result, the Golf Club had undertaken some works to remove silt and soil from watercourses. It was noted that water authorities were allowed a permitted amount of discharge in to watercourse by law during periods of heavy rainfall.

Concern was expressed that the flooding issues in the village could be made worse by the proposed large-scale housing development at Windwhistle Farm. In particular, there was a concern that the proposals for surface catching water running off the site was not adequate to cope with the volume of water which may cause flooding issues on Birkin Lane. James indicated that these issues would be fully addressed as part of assessments made during the planning process and the Parish Council would have the opportunity to comments on the proposals.

Concern was expressed that the two ponds off Birkin Lane were full of silt along with the culvert which was making the flooding problems on the road greater. It was noted that the County Council were looking into the problem. However, water voles lived in the area and as they were a protected species, care had to be taken when undertaking work.

The Chairman thanked James for his work to date and for attending the meeting.

RESOLVED to note the report.

2312. REALIGNMENT OF BUS SHELTER OF BUS STOP/SHELTER – NORTH WINGFIELD ROAD

The Clerk reported that the County Council had contacted the Parish Council to indicate that they were considering realigning the bus shelter near the junction of

Westhill Lane and North Wingfield Road in order to assist with a proposed development to the rear of Westhill Lane. A new modern shelter would be erected in its place at no cost to the Parish Council. The Parish Council expressed concern that the Council were proposing to move the shelter even though at this stage, no appeal or new application had been made. Councillor Ms J A Hill would take the matter up with the County Council.

The Parish Council objected to the proposal as it was considered that, even if the shelter was relocated to improve visibility, the access to and from the site would still be dangerous.

RESOLVED to object to the proposed realignment and replacement of the bus shelter.

2313. TEMPORARY ROAD CLOSURE – NORTH WINGFIELD ROAD - 26-29 MAY 2015

The Clerk reported that the Parish Council had been notified of the proposed closure of North Wingfield Road from 26 – 29 May 2015 between the junctions of Furnace Hillock Way and Birkin Lane. The closure would be effective between 9.00am and 4.00pm.

RESOLVED to note the report.
